

S.N.M COLLEGE MALIANKARA

(Affiliated to Mahatma Gandhi University, Kottayam)

1. Title of the program : *'Need of Conservation of Mangroves'* (International Day for the Conservation of Mangroves), Under Saakalya programme

2. Name of the Coordinator/s : Dr. Sanilkumar MG

3. Organizing Department/Cell : Department of Botany

4. Date : 26.07.2021

5. Number of participants: 10

6. Venue: Department Research Room

7. Resource Person/s : Nil

8. Objective of the Program : To promote the drawing and nature care activities of students.

9. Detailed description of the event:

Mangroves are rare, spectacular and prolific ecosystems on the boundary between land and sea. These extra ordinary ecosystems contribute to the wellbeing, food security, and protection of coastal communities worldwide. They support a rich biodiversity and provide a valuable nursery habitat for fish and crustaceans. Mangroves also act as a form of natural coastal defence against storm surges, tsunamis, rising sea levels and erosion. Their soils are highly effective carbon sinks, sequestering vast amounts of carbon. Certificates of merits awarded to the students who participated in this contest

10. Outcome of the event/Evaluation by Program Coordinator: The theme given was need of conservation of mangroves. Only 10 students were participated. The lower participation might be due to the lack of confidence of drawing skills among students.
