8. Detailed description of the event:

The department of Physics organised a Angawadi visit to promote kids for extracurricular activities. The students of the Physics department make them more interactive and engage them with activities like sports, games, music etc. About 10 students interacted with them in two sessions and made the day fruitful.

9. Outcome of the event/Evaluation by programme Coordinator:

Creation of being a good human by adopting the behaviour of kids is the best way to maintain a quality life. The students get a chance to interact with small kids by sharing their childhood days and experience they have attained.
