- 9. Detailed description of the event:**

The Botany association activities for academic year 2019-2020 were held on 5th August 2019. It was conducted as two sessions. The morning session was orientation programme for our fresher students. Afternoon session was a scholarly gathering that marks the beginning of the activities of Botany Association ‘Lindernia’ 2019-20. Welcome address was offered by Dr. M. G. Sanilkumar, Head, Department of Botany. Dr. C.N Sunil, Associate Professor (Retd.) and Research Guide, Research Department of Botany, SNM College Maliankara inaugurated the ceremony. Dr. C.M. Sreejit, our esteemed Principal presided over the function and delivered the presidential address. Felicitation was delivered by Smt. Minu M, HoD, Department of Zoology. The orientation programme for UG and PG students of Botany was also held on the same day. A highly informative lecture on Life Science: The Treasure of Opportunities, by Dr. M. Anilkumar, Assistant Professor & Research Guide, UC College, Aluva was arranged for all the students of our department. Students who choose life science for higher degree are often plagued by the doubt about job opportunities available after completion of course. They are often under the false impression that by studying chemical or physical science in graduate level they will be getting more job opportunities than life science.

## **10. Outcome of the event/Evaluation by Program Coordinator:**

Dr. M. Anilkumar, has given a very valuable information regarding the entrepreneurship opportunities in Botany and various job opportunities available for students after completion of life science courses. From his experience, many of the students, who have completed their

undergraduate course in Botany are now coping their livelihood with the locally available materials of botanical interest in addition to securing state and central government jobs. The very idea has conveyed here also, which in turn benefits the student community.
