8. Objective of the programme : Be a responsible citizen

9. Detailed report of the event : Once plastic is discarded after its utility is over, it is known as plastic waste. It is a fact that plastic waste never degrades, and remain on landscape for several years. Mostly, plastic waste is recyclable but recycled products are more harmful to the environment as this contains additives and colours. Plastic pollution is worse in the selected wards and students given awareness to the local people regarding the ill-effects of plastic. Our B Sc students collected plastic wastes from the adopted wards and given it to the recycling unit at Chendamangalam, North Paravur.

10.Outcome of the event/Evaluation by Programme Coordinator: This programme helped to remove plastic wastes in an ecofriendly manner.
