Report of E-Teaching Assistance Cell - 2022-23

Only one meeting was conducted in this academic year, which was on 7th June 2022 at Principal office 2:30 PM. The meeting held was to analyse the activity through LMS.

Since the offline classes were begun on regular basis, the faculty were doing their class in a offline or class room basis.

However, our institute is preferring a hybrid mode of teaching, all faculty are to maintain their account in some virtual and conduct as many as possible classes thru LMS.
