8. Objective of the Program : We wanted to make the families who had a hard time because of a big flood feel happy and together. So, we planned a special Christmas celebration for them. Our goal was to bring smiles and joy during a tough time.

9. Detailed description of the event: After a big flood in 2018, we wanted to bring some happiness to the families who were affected. The students from S.N.M.M. College, Maliankara, decided to organize a fun Christmas party. We made the place look pretty with decorations to make it feel like a party. We sang songs, danced, and played games to make everyone feel happy.

One of the best parts was when we gave gifts to the families. We paid special attention to the elderly people and kids who needed extra help. We also shared a delicious Christmas cake and sang Christmas carols. During the celebration, it felt like we were all one big family. We laughed, talked, and had a great time together. This event helped the families forget about their problems for a little while and enjoy the happiness of Christmas.

10. Outcome of the event/Evaluation by Program Coordinator I'm really glad we did this event. It made the families and us feel really good. We learned that even when things are tough, coming together and celebrating can make us feel happy. We want to keep doing things like this to help others and show that we care about them.
