

S.N.M COLLEGE MALIANKARA

(Affiliated to Mahatma Gandhi University, Kottayam)

1. Title of the program: Reviving Wells, Renewing Hope: NSS Volunteers' Water Purity

Initiative After the Floods

2. Name of the Coordinator/s : Sunilkumar C P & Anusree

3. Organizing Department/Cell : NSS Unit 47

4. Date : 8.9.2018 & 9.9.2018

5. Number of participants: 80

6. Venue: Paravur Municipality area

7. Resource Person/s : Nil

8. Objective of the Program : The objective of the NSS volunteers' initiative was to assess and address the issue of unusable wells in the Paravur region following the devastating floods of August 2018. The program aimed to collect water samples from the flood-affected houses, cooperate with the Kerala Pollution Control Board and Paravur Municipality to test the water's purity, and provide reassurance to the community about the safety of using well water for drinking purposes.

9. Detailed description of the event: The devastating floods that struck the Paravur region in August 2018 left a trail of destruction, including rendering many wells unusable due to contamination. Despite chlorination attempts, people remained apprehensive about using well water. To address this critical issue, the NSS volunteers took the initiative to collect water samples from the flood-affected houses, with the valuable support of the Kerala Pollution Control Board and Paravur Municipality.

Under the able guidance of the program officers, a dedicated team of about 80 volunteers actively participated in the survey. Divided into five teams, each comprising three members, they diligently collected water from the wells in the locality over two days from 8 am to 5 pm.

As there were no water testing facilities available in Paravur, the volunteers took the collected samples to the Pollution Control Board for scientific analysis. The conclusive findings reassured the community that the water had regained its purity and was safe for drinking. This reassuring information was conveyed to the people of the locality, especially to those who solely relied on well water for their drinking needs.

Through this project, the NSS volunteers not only addressed the immediate concern of water purity but also gained invaluable experiences. They interacted with different people in the locality, understanding the hardships they endured during the floods. Additionally, the volunteers grasped the significance of adhering to time-oriented work schedules and the importance of drinking water for a healthy life.

Moreover, the NSS Unit's involvement in the Discovery Channel's documentary titled "Kerala Flood: The Human Story" added to their sense of pride. They showcased their humble yet impactful efforts as part of "Rebuilding Kerala" after the catastrophic floods.

10. Outcome of the event/Evaluation by Program Coordinator:The NSS Water Purity Project proved to be a successful and significant step in rebuilding the lives of the flood-affected community in Paravur. A noteworthy achievement of this endeavor was the collection of water samples from over 600 houses, providing much-needed assistance to those heavily dependent on well water. The selfless dedication of the volunteers and their commitment to social service exemplify the spirit of NSS and their contribution to the welfare of society. The initiative demonstrated the importance of collective action in times of crisis, leaving a lasting impact on both the volunteers and the community they served.
