He spoke about ozone depletion and the ozone hole and other negative effects and also onthe consequences of ozone layer depletion , greenhouse effect global warming and climatic changes.Nearly 80 participants were there in the programme. The programme ended with a vote of thanks, given by the students.

10. **Outcome of the event/Evaluation by Program Coordinator:** The theme for World Ozone Day this year is “Montreal Protocol – keeping us, our food and vaccines cool”. The theme seeks to highlight the importance of the protocol in combating climate change and ensure awareness of its long-term gains.World Ozone Day is observed on September 16, every year. It is celebrated to spread awareness among people about the depletion of the Ozone Layer and search for possible solutions to preserve it. On this day, people from all over the world are expected to join the Montreal protocol to join the talks and seminars. September 16 was designated by the United Nations General Assembly as World Ozone Day. United Nations defines ozone layer as 'a fragile shield of gas that protects the Earth from the harmful portion of the rays of the sun, thus helping preserve life on the planet.
