ORIENTATION PROGRAMME

Introduction: PVT Merit Bio Labs, Ernakulam is a pioneer institution for research and training with a blend of Biotechnology, Microbiology, Biochemistry, Physical Sciences and Life Sciences that encourage innovative ideas. It was started in 2014 with a vision to be pioneer in testing, training, consultancy and research and development services. Department of Chemistry, S.N.M College, Maliankara signed an MoU with PVT Merit Bio Labs, Ernakulam to provide projects works and internship programmes in Bio Chemistry for undergraduate and post graduate students of Chemistry.

Objective of the progamme: To provide learning and education opportunities for students to learn relevant skills and Biolabs in project based learning and to enhance their future career prospects.

Description of the progamme: Department of Chemistry, S.N.M college, Maliankara and PVT Merit Bio Labs, Ernakulam jointly organised an orientation programme for undergraduate and post graduate students of Chemistry on 14^h September 2023. The session is intended to make students aware of learning and education opportunities in Bio Chemistry and to prepare them for their future career. Professionals from PVT Merit Bio Labs talked about student academic projects and internship programmes that they offer in Bio Chemistry for which applications are invited every year from students for doing research projects in Bio Chemistry guided by experienced professional and scientific experts. The orientation programme was followed by an interactive session, answering the queries from the student community.

Outcome of the programme: The orientation programme was successful in creating awareness among students about the learning and job opportunities in the field of Bio Chemistry and also about the importance of successful completion of a project work or internship programme with PVT Merit Biolabs. Both undergraduate and post graduate students of Chemistry attended the programme. Nearly 18 students were benefitted by the programme.
