SNM College Virtual Campus

"The standards of the future will demand the learning support that is appropriate for their situation or context. Nothing more, nothing less. And they want it as the moment the need arises. Not sooner, not later. Mobile devices will be a key technology to providing that learning support." - Prof. Marcus Specht.

SNM College Maliankara proudly announce the launch of a Learning Management System (LMS) for the benefit of students and teachers to cope up with prevailing situation of learning. LMSs are massive online repository where you can store and track information. We can access these online training resources whenever and wherever with login credentials. Our college is initiating a self-hosted LMS and, in which users must also have the LMS software installed on their devices or gadgets.

Learning Management Systems are beneficial for educational institutions as they provide synchronous virtual classrooms. This has the potential to provide significant online
