SOFTWARE FOR BLIND

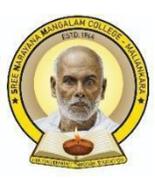

The screenshot displays the NVDA software interface. At the top, a browser window shows the NV Access website with the logo and the text "Empowering lives through non-visual access to technology". Below this, the NVDA Log Viewer window is open, showing a log of system events and configuration details. The NVDA Speech Viewer window is also open, displaying the text "What is NVDA? NVDA (NonVisual Desktop Access) is a free 'screen reader' which enables blind and vision impaired people to use computers. It reads the text on the screen in a computerised voice. You can control what is read to you by moving the cursor to the relevant area of text with a mouse or the arrows on your keyboard." A green arrow points to the NVDA Speech Viewer window. The Windows taskbar at the bottom shows the system tray with the time 2:29 PM and date 20/09/2017.
