About the College...

SNM College Maliankara symbolises the steady advancement of an underdeveloped village, with its vast population belonging to the backward classes, towards social and cultural regeneration. Its mission has been, as enunciated by the great social revolutionary of Kerala, Sree Narayana Guru, emancipation through education. The institution upholds the message of the great Guru and strives to be a source of enlightenment to the people at large and poor and socially backward, in particular. From its inception in 1964, the college has been rendering commendable service as a centre of learning and culture.

The academic community of the college is totally committed to help evolve a new generation of young people who are just, kind and responsible. The institution's thrust is to impart holistic education to young men and women from all strata of society and develop in them employability and the other skills necessary for being successful in life. The area, where the college is situated, is no more an isolated, underdeveloped part and is on the wings of development and progress.

The college is the legacy of the Vadakkekara Hindu Matha Dharma Paripalana Sabha, a voluntary organisation formed in 1882, by the spirited youth of the backward Ezhava community in the Vadakkekara region. The H.M.D.P. Sabha, Moothakunnam as it is popularly known, launched a vigorous campaign for social

justice and liberation from social bondage. The message and benediction of Sree Narayana Guru provided inspiration and the right direction to the activities. As part of the movement, the Sabha took initiative in the establishment of educational institutions. The institutions, run by the Sabha, have played a leading role in fighting the evils of illiteracy and ignorance among the poor and downtrodden and raising the cultural standards of the masses. The SNM College, Maliankara is another link in the tradition.

The College was inaugurated in 1964 by Sri.Sahodaran Ayyappan, an ardent disciple of Sree Narayana Guru and also a leading public figure championing the cause of social liberty. It was in a cluster of thatched sheds near the Moothakunnam temple that the classes were held in the beginning. The foundation stone for the college building at Maliankara was also laid at that time by Sahodaran Ayyappan himself. The College was shifted to the new campus at Maliankara in 1965.The present massive buildings were constructed in subsequent years, providing facilities for the expansion of the College.

Degree Courses were started in 1972, Post Graduate Courses in 1983 and Research Centre in 2011. The college has a student strength of more than 2000 at the Under Graduate and Post Graduate levels comprising of 13 Degree Courses, 8 PG Courses, 1 Integrated PG Course and 2 research centres. The college has been re-accredited by NAAC with 'B++' grade with a CGPA at 2.81. Efforts are being made to secure more Under Graduate courses, Post-Graduate courses and Research Centers to make the College a leading centre of higher education in the state.

Automatic Weather Station (AWS)

In order to measure the precise weather conditions of the coastal area, the Advanced Centre for Atmosphere Radar Research functioning in Cochin University of Science and Technology under the funding of Ministry of Earth Sciences, Govt. of India, has installed an Automatic Weather Station (AWS) at the College. This will facilitate the exact calculation of the wind speed, amount of rainfall, and other weather deviations of the area. The equipment functioning with solar energy will transfer data directly from the sensor connected to the AWS to the Radar Research Centre, CUSAT. The students can get access to the data and can utilize it for the research purposes. The AWS is the first of its kind functioning in an aided college in the district.

SNMC Virtual Campus

The college has launched a Learning Management System (LMS) for the benefit of students and teachers to cope up with prevailing

situation of learning in the Covid-19 scenario. Learning Management Systems are massive online repository where you can store and track information. These online training resources can be accessed from anywhere, with login credentials. The college has initiated a self-hosted LMS that has the potential to provide significant online learning experience which can create a new standard in the learning environment. It enhances instant feedback, direct teacher-student interaction, and can motivate the students to intensify their quest of knowledge. The LMS is managed by Root and Cluster Administrators.
